Based on Reading from 1 Corinthians 3 – 7

Preschool – Kindergarten

Text: 1 Corinthians 3:5-9

Materials needed: Pot, soil, seed and water.

Activity: Plant a seed together in a pot or in the ground. If in the ground mark the spot well so you can water and watch for the seed to grow. While working on planting talk about how nice it is to work together. One of you puts in the seed another waters. **Ask:** Who makes the seed grow? We can do our part to help the seed, but only God makes the plants to grow.

Continue caring for the seed, and watch the miracle of the growth unfold.

Wrap-it-up: God also grows people. God wants people to grow to love him more and more every day just as the seed will grow more every day. Mommies and Daddies and Grandparents, and teachers at church (add the names of all who spiritually influence your child) all help us learn about God, and God gives us His love every day to help us grow to be like him. We can help others grow by telling them about God's love too, just like we helped the plant by watering and caring for it. Discuss who you would like to tell about God's love for them.

Pray: Invite Jesus to be your friend and Savior.

Elementary Grades 1st – 6th

Text: 1 Corinthians 3:5-9. Read the text together.

Activity: (see above).

Pray: Pray that God will help the plant grow and to help us all to grow to love God more.
